EXPERIENCE

Ekana Technologies, Lucknow — Intern

AUG 2024 - JAN 2025

- Developed and maintained interactive, responsive web interfaces using HTML, CSS, and JavaScript, enhancing user experience across multiple client-facing websites.
- Implemented PHP CRUD operations to build and manage dynamic content and data-driven functionalities in custom web applications.
- Gained hands-on experience with the Laravel framework to manage routing, and apply MVC architecture in real-world projects
- Customized and managed websites built on WordPress, including theme development, plugin integration, and performance optimization.
- Participated in the end-to-end web development lifecycle, contributing to both front-end design and back-end logic for live client projects.

Betaue Training and Placement Services, Kanpur — Summer Intern

AUG 2023 - SEPT 2023

- Completed a structured 6-week summer training program focused on foundational software development and programming concepts.
- Gained hands-on experience in C programming, emphasizing control structures, functions, arrays, and pointer concepts.
- Learned and applied Core Java fundamentals using Eclipse IDE, including OOPS principles, exception handling, and basic GUI programming.
- Worked with MySQL for basic database management, including table creation, queries (SELECT, INSERT, UPDATE, DELETE), and relational data handling.
